

Chainalysis

CRYPTOCURRENCY FUNDAMENTALS CERTIFICATION (CCFC)

Program led
virtually by
airdropd

The Chainalysis Cryptocurrency Fundamentals Certification (CCFC) is considered the best course to gain a better understanding of Bitcoin and cryptocurrency, the blockchain ecosystem, the stakeholders and the regulatory landscape of cryptocurrency.

airdropd is a Certified Training Partner of Chainalysis and will be offering a unique experience for learning and applying cryptocurrency knowledge, including access to experienced trainers, enhanced course material including mock exam questions, resource documents and career and interview.

This is your opportunity to receive an Internationally recognized Certificate from Chainalysis (upon successful completion), whose training, products and services are used by institutions, governments and regulators worldwide.
